

MINE RESCUE CAR "NO. 3"

Will be in Earlington From
February 1st to 14th—
Free Lectures Will
be Given

MOVING PICTURES TO BE SHOWN

Washington, January 20.—
Mine Rescue Car No. 3, of the
United States Bureau of Mines,
in charge of Foreman Miner G.
T. Powell and a crew of trained
men, will reach Nortonville, Ky.,
on Jan. 23, on its itinerary thru
Kentucky. The car will be on
exhibition every day from 9:00
am. to 5:00 pm. until Jan. 31,
and free lectures will be given
miners on safe methods of min-
ing, the use of safety lamps and
rescue apparatus, and mine gas-
es. On February 1, the car will
come to this city, to remain un-
til February 14, after which date
it is to proceed to Madisonville,
Ky., to remain until Feb. 28.
From March 1, to March 7, in-
clusive, the car will be at Mor-
ganfield, Ky.

This mine-rescue car is one of
eight now in use by the Bureau
of Mines for training miners in
first aid and rescue methods and
the use of oxygen-breathing ap-
paratus. Each car has a crew
that includes two experienced
miners, a mining engineer in
charge, and a mine surgeon. and
is equipped with the latest res-
cue and first aid apparatus and
supplies. At a moment's notice
the car is ready to proceed to the
scene of a disaster, where the
bureau men place themselves
under the direction of the state
mining inspectors and mine offi-
cials to do everything possible to
assist or save miners who may
have been injured or entombed.

The saving of human life and
lessening the sufferings of in-
jured miners are the central fea-
tures of the bureau's work.

Miners are shown how to use
rescue apparatus, and how to
take care of an injured comrade.
The lectures are illustrated by
lantern slides and moving pic-
tures which show good and bad
methods of mining and how many
accidents are easily prevented.
These lectures are given in the
car when a suitable meeting
place cannot be procured else-
where, but lantern slides and
moving pictures cannot be shown
in the car.

Each car carries oxygen-breath-
ing apparatus, a supply of oxy-
gen in cylinders, safety lamps,
a field telephone with 2,000 feet
of wire, a collapsible steel mine
cage, an apparatus for reviving
miners who have been gassed,
and the charts, splints and ban-
dages for demonstrating first-aid
methods. Some of the training
with rescue apparatus will be in-
side the mines, also in smoke and
fumes, so that wearers will un-
derstand the value of the appar-
atus and how to use it. A miner
wearing the apparatus can enter
a mine immediately after an ex-
plosion, and work in smoke and
black damp for two hours.

Many thousand miners have
been trained in the use of this
rescue apparatus at the Bureau
of Mines cars and stations. It
is hoped that in the near future
every miner in this country will
have a working knowledge of the
status, and that every mine
have equipment ready for
in case of emergency. Many
miners have been saved after ex-
posures by rescue parties wear-

ing the apparatus; also, the ap-
paratus has proved a great value
in fighting mine fires.

the rescue cars and stations, and
this instruction is given either

to underground workers but
to all those employed around the
mines and metallurgical estab-
lishments.

Bad Cold Quickly Broken Up
Mrs. Martha Wilcox, Gowanda, N. Y., writes: "I first used Chamberlain's Cough Remedy about eight years ago. At that time I had a hard cold and coughed most of the time. It proved to be just what I needed. It broke up the cold in a few days, and the cough entirely disappeared. I have told many of my friends of the good I received through using this medicine, and all who have used it speak of it in the highest terms." Obtainable everywhere.

"POSSUM HUNTERS" GET FIVE YEAR Sentences in Muhlenberg Circuit Court at Green- ville

The Muhlenberg Circuit Court ad-
journed Friday until Monday, hav-
ing caught up with the docket. Be-
fore court adjourned, however, sen-
tence was passed upon O. R. Knight,
Edgar Knight and George Stirsman,
convicted of banding and confeder-
ating together, each being sentenced
to serve not less than four years and
364 days and not more than five
years. Each when sentenced pre-
tested his innocence and Stirsman
gave as an additional reason as to
why he should not be sentenced that
he had a wife and two small chil-
dren who needed his assistance. The
court remarked that none of the rea-
sons given was valid and sentence
was pronounced.

Liniment on the affected parts is all
you need. The pain goes at once.

A grateful sufferer writes:—"I

The Gist of It

"Last December I had a very se-
vere cold and was nearly down sick
in bed. I bought two bottles of
Chamberlain's Cough Remedy and
it was only a very few days until I
was completely restored to health,"
writes O. J. Metcalf, Weatherby,

of this remedy, ask any one who has

MOTHER! GIVE CHILD "SYRUP OF FIGS" IF TONGUE IS COATED

If cross, feverish, sick, bil-
ious, clean little liver
and bowels

Children love this "fruit laxa-
tive," and nothing else cleanses
the tender stomach, liver and
bowels so nicely.

A child simply will not stop
playing to empty the bowels, and
the result is, they become tight-
ly clogged with waste, liver gets
sluggish, stomach sours, then
your little one becomes cross,
half-sick, feverish, don't eat,
sleep or act naturally, breath is
bad, system full of cold, has sore
throat, stomach ache or diarrhoea.
Listen, Mother! See if tongue
is coated; then give a teaspoon-
ful of "California Syrup of Figs,"
and in a few hours all the con-
stipated waste, sour bile and un-
digested food passes out of the
system, and you have a well,
playful child again.

Millions of mothers give "Cal-
ifornia Syrup of Figs" because
it is perfectly harmless; children
love it, and it never fails to act
on the stomach, liver and bowels.
Ask your druggist for a 50c
bottle of "California Syrup of
Figs" which has full directions
for babies, children of all ages
and for grown-ups plainly print-
ed on the bottle. Beware of
counterfeits sold here. Get the
genuine, made by "California
Fig Syrup Company." Refuse
any other kind with contempt.

CHARGES OF WASTE OF MINERS' MONEY

Bitter Debate Over Proposal
to Investigate Alleged
Extravagance

Indianapolis, Ind., Jan. 20.—A bi-
ter debate in which personalities
figured to a large extent was pre-
sented in the convention of the United
Mine Workers yesterday over a
proposition to have a committee ap-
pointed to investigate alleged ex-
travagance in the financial affairs of
the organization. Charges were
made that there was a waste of
money, that some of the union's sal-
aried employees padded expense ac-
counts and were inefficient. Coun-
ter charges were made that the in-
vestigators of the proposed investi-
gation had only ulterior motives and
were actuated by a desire to bring
discredit to the organization and its
leader.

SUIT BROUGHT FOR \$10,000

Against Marshall Keech of
Dawson Springs

K. H. Keech, appointed chief
of Police of Dawson Springs less
than one month ago, Saturday
was made the defendant in two
damage suits filed by E. B. Rod-
gers and Hugh French, both of
Dawson Springs. In the sum of
\$10,000. The suits were filed by
Yost & Franklin.

Rodgers is suing for \$5,000 be-
cause the marshal insisted on
searching his suit case, and
French, it appears, was forced to
assist in making an arrest, claim-
ing the marshal drew his revol-
ver on him and threatened him,
and he is humiliated to the ex-
tent of \$5,000.

Deafness Cannot be Cured

by local applications, as they cannot reach the
diseased portion of the ear. There is only one
way to cure deafness, and that is by constitu-
tional remedies. Deafness is caused by an inflamed
condition of the mucous lining of the Eustachian
Tube. When this tube is inflamed you save a
rumbling sound or imperfect hearing, and when
it is entirely closed, deafness is the result, and
unless the inflammation can be taken out and
this tube restored to its normal condition, hearing
will be destroyed forever; nine cases out of ten
are caused by Catarrh, which is nothing but an
inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case
of Deafness (caused by catarrh) that cannot be
cured by Hall's Catarrh Cure. Send for cir-
culars, free.

Ask Equipment For Military Schools

Washington, Jan. 21.—The ex-

ciation of Military Schools and
Colleges asked the House mili-

forty-two private institution in

York Military Institute said 5,000
boys were graduated from the
schools last year, all of whom
had been trained along lines laid
down at West Point and were
fitted to become second lieuten-
ants of volunteers.

He asked that the government
issue modern rifles and equip-
ment to replace the obsolete wea-
pons now loaned and also tents
and equipage for field training.

In as much as there is never a day passes that you can't see any number of little boys around on the streets puffing at an old cigarette apparently as though they believed it smart and healthful and never a restraining hand raised, and knowing someone is violating the law, and also injuring the health of the young boys, we deem it wise just here to quote the law on this subject which states clearly the duty of any and all PEACE officers.

The law in full follows:
It is unlawful for any person, firm or corporation, to sell, give or furnish to any person under 18 years of age, cigarettes or cigarette papers. It is also unlawful for any person under 18 years of age to smoke cigarettes, or to have about his person cigarettes or cigarette papers. The punishment for the latter offense is a fine not exceeding \$5.00. The person smoking or having in his possession cigarettes or papers may escape punishment by disclosing the name of the person or corporation from whom same was procured.

IT IS MADE THE DUTY OF CONSTABLES, POLICEMEN, SHERIFFS AND MARSHALS TO ARREST ANY PERSON UNDER 18 YEARS OF AGE WHO MAY BE FOUND SMOKING CIGARETTES OR HAVING IN HIS POSSESSION CIGARETTES OR MATERIALS FOR MAKING CIGARETTES.

Any person of ANY age who smokes cigarettes in or about a school building during school hours is liable to a fine of \$5.00. For the sale of cigarettes or papers to any person under 18 years of age, a person or a firm is liable to a fine of not less than \$10.00, nor more than \$20.00. And for each subsequent offense a fine of not less than \$25.00 nor more than \$300.00.

Getting His Hair Cut.
Mr. Cleverleigh entered his club a few mornings ago, his chin and cheeks showing plainly that he was freshly emancipated from the hands of the barber.

"Been having a shave, old man?" asked Dubbins lastly.
"Yes, and had my hair cut, too," was the reply.
"Always have my hair cut when I have a shave."

"And how often do you get shaved?" was the languid inquiry from his friend.
"Every morning," answered Cleverleigh.
"And have your hair cut, too, every day?" said the other.
"Yes."
"Don't you find it rather expensive?"
"No; it only costs 15 cents."
"What! Only 15 cents for a shave and hair cutting?"
"That's all. Barber couldn't shave me without cutting my hair, you know."
And it took poor Dubbins seven and a half minutes by the club clock to see why.

Tears.
If every wish were granted,
If every hope came true,
If every need we planned,
A lovely blossom grew,
If every day were sunny
And every one were wise,
There'd be no sweet in honey,
There'd be no joys to prize.

If we knew that tomorrow
Would be just like today,
With not one touch of sorrow,
No care to spoil our play,
No doubt and no misgiving,
No heartaches and no fears,
Then vain were all our living,
We'd snuff the joy of tears.
We'd sigh for sacred sorrow,
We'd long to feel the rain,
And we should yearn to borrow
The blessedness of pain.
For more than all the pleasure
That came and quickly fled
A down the years we treasure
The tears that we have shed.

Edison Congratulates St. Paul Railroad

Thomas A. Edison, the electricity wizard, sent president A. J. Earling, of the Chicago, Milwaukee & St. Paul Railway a telegram commending him for the electrification of a portion of the system which he heads. The telegram follows:

"Your work of electrification of the 140 miles of the Rocky Mountain division of the St. Paul Railway is one more of the great achievements permitted by the wedding of science and business. I congratulate you and admire the nerve of the railroads financial backers."

"I am more than pleased with Mr. Edison's message," said President Earling. "It is very gratifying to receive such a telegram from him. The official test, made at Jannay, Mont., a Month ago, was an unqualified success. Where formerly three steam locomotives were necessary to pull 2,000 tons up steep grades in the mountains, it takes only two electric motors to pull a load of 3,000 tons. The electric motors make twice the speed. It is without question the greatest and most ambitious electrification project in the history of all railroading."

One Experience Convinced Me of its Value

"One of our salesmen demonstrated the value of the Long Distance Telephone to us. He was at Huntsville, Ala., and upon his own responsibility put in

Long Distance calls for fifteen merchants within a radius of several hundred miles.

"In less than one hour he had sold 2100 barrels of flour at a total cost to us of less than six dollars.

"Since then we have applied the Long Distance Bell Telephone to every feature of our business with most profitable results. The service is fine, the rates are reasonable and there is more satisfaction in one Long Distance Telephone talk than in half a dozen letters."

FOR KENTUCKY WOMEN WHO ARE TIRED OUT, NERVOUS, SLEEPLESS, OR RACKED WITH PAIN.

Louisville, Ky.—"When I was in need of a woman's medicine I saw Dr. Pierce's Favorite Prescription advertised. I was nervous, tired out, and it seemed as if I was unable to meet my work. After I began using the 'Prescription' I became better and so much stronger. I used five bottles of this remedy and was entirely cured. I have never been bothered since. I am glad to recommend it because I desire to help others similarly placed."—Mrs. MARY SCHMIDT, 2221 Bank St.

Dr. Pierce's Favorite Prescription is a true friend to women in times of trial and at times of pain when the organs are not performing their functions. For girls about to enter womanhood, women about to become mothers and for the changing days of middle age, Dr. Pierce's Favorite Prescription should always be on hand.

It's a temperance remedy that is extracted from roots with pure glycerine and its ingredients are published on wrapper.

Y., for free 136-page book on woman's diseases. Every woman should have one. You can also have confidential medical advice without cost.

Dollars Waiting For You

Mr. Business Man:

All indications point to a vast improvement in business conditions in this community during the present year. Money will be plentiful, purse strings will be loosened, and prosperity will walk abroad.

But the extent of that prosperity will depend in large degree upon the attitude of the local merchant or other business man. It will depend upon his willingness to meet the liberality of the people in an equal liberality in his methods of bidding for their trade.

In other words, the business man who advertises his goods and meets the wishes of the people in their demands for advance information relative to the articles they seek, is the one who will reap the principal benefits from the prosperity that is expected to sweep over the land.

You, as a business man of this community, have a great opportunity before you. With the return of confidence in the stability of the country the people will unquestionably be liberal in their expenditures, and vast sums of money will be spent where heretofore rigid economy has been the order of the day.

It is the part of wisdom for the local business man to prepare at once to meet these changed conditions by placing himself prominently and advantageously before the people of this community, for assuredly he will be called upon to compete with other firms in other places who are not less energetic or far seeing than himself.

We strongly urge upon you the vital necessity for mapping out a judicious campaign of advertising in this paper during the coming year. The cost is small, and there can be no doubt whatever that the advantages will be great. Merchants in other places will be advertising heavily and in various ways in an effort to secure the trade of this community, and one of the least considerate of these will be the mail order man.

This suggestion means much to you in the matter of profits during the coming year, and we ask you to give it your serious consideration during the next few days. Then we will speak to you face to face.

Very Truly Yours

COLORED COLUMN
(Miss Neva Waters, Editor)

The program rendered by the choir of the A. M. E. Church on Sunday night was quite a success in every way.

The contest between the Blue and the Red at the C. M. E. church is interesting. The Blues are in the lead.

The collection at the P. S. A. Sunday was \$31.32. The Yellow Rose side has had the flag two Sundays straight. They will have to fight sure enough to get it next Sunday. Come out to witness the battle.

Our band boys are splendid and we are very proud of them. At their concert on Monday night they made \$9 and they gave it to the Baptist church. The boys are public spirited and are always glad to help either of the churches and the school.

The "Dandy-Lions" are all the rage. They certainly did some roaring Saturday night. They roared and roared until they roared up \$11.30, which they turned over to the church Sunday. Rev. Scott is captain of the Dandy-Lions.

Don't miss the moving pictures Saturday night. Come out to see the Western reels and other special reels, have your photo made and eat the refreshments that will be served by the Helping Hand Club. Mrs. Collins is captain of the club and that is enough for you to know that you will have a big time.

Miss Hazel White, who is teaching in Westcott, spent Saturday and Sunday with her mother, Mrs. Nellie Lowry.

The collection raised at the Baptist church Sunday was \$82.

WOMAN AVOIDS OPERATION

Medicine Which Made Surgeon's Work Unnecessary.

Astoria, N. Y. — "For two years I was feeling ill and took all kinds of tonics. I was getting worse every day. I had chills, my head would ache, I was always tired. I could not walk straight because of the pain in my back and I had pains in my stomach. I went to a doctor and he said I must go under an operation, but I did not go. I read in the paper about Lydia E. Pinkham's Vegetable Compound and told my husband about it. I said 'I know nothing will help me but I will try this.' I found myself improving from the very first bottle, and in two weeks time I was able to sit down and eat a hearty breakfast with my husband, which I had not done for two years. I am now in the best of health and did not have the operation." — Mrs. JOHN A. KOENIG, 502 Flushing Avenue, Astoria, N. Y.

Every one dreads the surgeon's knife and the operating table. Sometimes nothing else will do; but many times doctors say they are necessary when they are not. Letter after letter comes to the Pinkham Laboratory, telling how operations were advised and were not performed; or, if performed, did no good, but Lydia E. Pinkham's Vegetable Compound was used and good health followed.

A back that aches all day and causes discomfort at night is usually worse in the morning. Makes you feel as if you hadn't slept at all.

You can't get rid of kidney back-ache, until you reach the cause—the kidneys.

Doan's Kidney Pills are especially prepared for weakened or disordered kidneys—highly gratefully recommended by thousands.

The following statement proves the merit of Doan's:

T. J. Post, Nortonville, Ky., says: "I had kidney trouble for about ten years. My back ached at night and I was lame in the morning. I tired easily, was nervous and had headaches and dizzy spells. My sight was also affected. The kidney secretions passed too frequently and contained sediment. Colds always settled on my kidneys. A few doses of Doan's Kidney Pills relieved me. They gave me more benefit than any other medicine I ever tried."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Post had. Foster-Milburn Co., Props., Buffalo, N. Y.

Truth Is Stranger Than Fiction

By RUTH GRAHAM

When a story is ready made there is nothing to do but tell it. This tale, the incidents of which really happened, is one of the improbable kind which go to prove that truth is stranger than fiction. The only change in it from the truth is the names of the actors and the locations.

We must go back to that period when a German army was thrown into Belgium; when the French gathered their forces to defend their capital and the English threw across the channel what troops were available to assist their allies. Yet it was not there that our story begins, but in a colony of the British empire. War had not yet opened when a girl and her mother in Canada were discussing a ball dress for the former, though the girl was more interested in the expected appearance at the ball of an Englishman than in her apparel.

"I hear," said Edith Warren to her mother, "that a son of the MacDermotts has come out from bonny Scotland to see his father and mother. Maybe he will be at the Scotia ball this evening."

"I think," replied her mother, "that you had better wear your pink silk to the ball, Edith. It is just the shade for your complexion."

Edith wore her pink silk to the Scotia ball and met Ian MacDermott, a captain in a Scotch regiment. Whether it was the dress or Edith's beauty or her charming manners that won the captain there is no record. Certain it is that she won him, and he carried her back with him to Scotland from her home in America on a honeymoon trip.

Scarcely had the newly wedded pair got settled in their home in Edinburgh when England declared war against Germany and threw a force across the channel into France. The honeymoon of the MacDermotts had not ended before the captain bade an adieu to his bride and went in command of his company to the front.

One night the English and Germans met in a hot fight. MacDermott's regiment was obliged to give ground before a superior force. The captain was struck by a fragment of a shell and left on the field among the dead and wounded. Then the British rallied and recovered the lost ground.

When it became possible for the Red Cross and the army surgeons to rescue the wounded a surgeon, coming upon the body of Captain MacDermott, took the identification tag from it and reported him dead.

It was a sharp blow to the bride when she received news of the death of her husband. She gave up her home in Edinburgh and removed to another locality, but only temporarily, for she designed to return to her parents in America. She was not able to leave at once, but as soon as arrangements could be made she sailed from a Scotch port for New York.

There was the usual bustle upon the sailing of a steamer. Mrs. MacDermott, in deep mourning, stood on the deck looking out upon the country in which so much happiness had been expected, grieving over the wreck of her hopes. The announcement had been made that all who were to go ashore must leave. When time had expired for this an order was given to draw in the gang-plank.

At this moment an auto came dashing up on the dock, sounding signals for persons to get out of the way. Evidently some belated passenger had arrived, and the hauling in of the gang-plank ceased. An officer in uniform jumped from the car and hurried aboard the ship.

A thrill shot through the breast of the woman in mourning. She saw in the newcomer her husband. Was she dreaming? Impossible! Had she become demented by the shock of passing so suddenly from a bride to a widow? Her brain was in a whirl until the officer, coming up on the deck, spied her and, running toward her, clasped her in his arms.

We left Captain MacDermott on the field of battle, the identification tag being taken from his body. Later while the work of removing the wounded was in progress a surgeon coming upon MacDermott saw signs of life in him. The captain was removed to a field hospital. Then he was sent across the channel and placed in a regularly organized hospital for the sick and wounded of the war. There he lay for a long while unconscious.

In time Captain MacDermott was brought round and was discharged from the hospital. He made all possible haste to his home in Scotland to find that his wife had given up her home and gone elsewhere, but where she had gone he was not informed. His only means of ascertaining her location seemed to be to send a cablegram to her relatives in America. This he did and received a reply that she was about to sail from Glasgow for home.

Such is the romance of a bride and groom which if told in a story book would subject the author to a charge of inventing what was so improbable as not to be legitimate fiction. In the war between the states there were cases of soldiers reported dead who were not even wounded. But nowadays every soldier carries on his person his name and other information concerning him. It would seem that the old causes of error are by this eliminated. Yet Captain MacDermott's being discovered insensible permitted the tag to tell a false story which was a long while being contradicted.

Sloan's Liniment

Read this unsolicited grateful testimony—

Not long ago my left knee became lame and sore. It pained me many restless nights. So serious did it become that I was forced to consider giving up my work when I chanced to think of Sloan's Liniment. Let me say—less than one bottle fixed me up.
